

Bohemian Paradise Marathon (Maraton Českým rájem), 6th edition

14/08/2016

A route of the marathon goes through an area where the landscape has been shaped by nature and also gently by human. Such landscape is unique – sandstone rocky areas, forests and meadows supplemented by castles, palaces and other buildings.

The route is a little longer than 42,195 km. Because of the elevation is not the exact distance that important, personal marathon record is impossible (except first-marathon-runners). Moreover, it is not purely a road marathon, although asphalt prevails, it is not purely an off-road marathon along stony paths, although sometimes along stony paths and paths with roots you will run, it's the Bohemian Paradise Marathon.

According to some sources, the Battle of Marathon took place in 490 BC on August 12. Whether or not a messenger ran to Athens to convey a message about a famous victory today is not so important. The legend is still alive.
